CAREER OBJECTIVE

Aspiring Full Stack Developer and Software Engineer with a strong interest in web development, application development, data analytics, and AI-driven solutions. Seeking to apply my technical, analytical, and problem-solving skills to build scalable and efficient applications, derive meaningful insights from data, and contribute to innovative real-world solutions while continuously learning emerging technologies.

EDUCATION

B.Tech Information Technology – Sri Krishna College of Technology (2024 – 2028) | CGPA: 8.16/10

HSC – Veveaham Matric Higher Secondary School (2024) | 90%

SSLC – Srinivasa Vidhyalaya Matric Higher Secondary School (2022) | 91.2%

TECHNICAL SKILLS

Languages: Python, Java, C++, JavaScript, SQL

Web Development: HTML, CSS, React, Node.js

Frameworks: Spring Boot

Databases: MySQL

Data & AI: Pandas, NumPy, Power BI, AI/ML, Generative AI

Tools: Git, GitHub, VS Code, IntelliJ IDEA, VMware

Concepts: Data Structures, OOP, REST APIs, DBMS

PROJECTS

1. GridGuard AI – Intelligent Power Outage Prediction System

Tech Stack: React.js, TypeScript, Spring Boot, Python, MySQL, TensorFlow, Scikit-learn, Firebase

- Developed an AI-powered system that analyzes grid, sensor, weather, and power-demand data to predict potential power outages.
- Implemented anomaly detection and predictive analytics to identify abnormal grid patterns and support proactive maintenance.

2. AI-Powered Fashion Recommendation Platform

Tech Stack: Python, FastAPI, PostgreSQL, Vector Databases, Computer Vision, Machine Learning, Agentic AI

- Developed an AI-powered fashion platform using Computer Vision, Machine Learning, and Agentic AI.
- Built a scalable FastAPI backend integrated with PostgreSQL and vector databases for fit prediction and personalized recommendations.

3. AgroStay – Smart Agriculture, Resort & Nursery Platform

Tech Stack: HTML5, CSS3, JavaScript, React.js, Node.js, MySQL

- Developed a web application integrating agro-tourism resorts, plant nurseries, and agricultural products into a single platform.
- Designed features for resort exploration, plant purchasing, and showcasing sustainable farming practices.

ACHIEVEMENTS

- Secured a Centum in Computer Science in the HSC Examination
- Participant – Smart India Hackathon (SIH) 2025
- Participant – MSME Hackathon 2025
- Participant – Statathon 2025
- Participant – DevHack 2026 Hackathon, Sri Krishna College of Technology
- Participant – App and Web Showcase, Sri Krishna College of Technology
- Maintaining a 150+ day coding streak on LeetCode

CERTIFICATIONS

- Data Structures and Algorithms – Infosys
- Java Programming: A Comprehensive Bootcamp from Zero to Hero – Infosys
- Crash Course on Python – Google
- AWS Cloud Practitioner Essentials – AWS
- Introduction to Large Language Models – NPTEL
- Artificial Intelligence: Concepts and Techniques – NPTEL
- Introduction to AI – Infosys

- C++ Programming Course – Infosys
- HTML Attributes and Tags – Great Learning

INTERNSHIP

Data Analyst Intern – Yelkom Technologies, Coimbatore (Apr 2026 – Jun 2026)

- Worked on data cleaning, analysis, visualization, and dashboard development to support business insights.

DECLARATION

I hereby declare that all the details mentioned above are true and correct to the best of my knowledge, and I take full responsibility for the accuracy of the information provided.

Place: Coimbatore
